Purely Business!

The columns of a newspaper represent a vast field of opportunity for the advertiser. It is not a matter of how much you can afford to give advertising "space," but of how much you can afford to give your business to the public. The advertiser who gives his business to the public, gives it to the public in the most effective manner. The advertiser who gives his business to the public, gives it to the public in the most effective manner. A William goat, with low-horned head, rushed wildly forth to butt—

A moment later he lay dead with a shattered cocoon!

The fellow that he sought to crush—

The victor in the fray—

Turned out to be a center-rub.

Who met the goat half way.

COUNCIL MEETING

Regular Monthly Session of the City's Guardians.

Obtain Reports—Bills For Overflow Damages—The Delinquent List—Tax Supervisors—Building Permits—Another Noble Wanted at Second and Sutton. But Not Granted—Minor Matters.

Council met in regular session last evening, Mayor Stallcup in the chair.

The Mayor reported that he had received \$208.76 during the month of March for licenses issued.

[The LEDGER wishes to print only such figures as can be afforded to the public. Formerly, the monthly reports of the Police Judge and the Chief of Police were a source of intelligent news; but under a "newangled idea" of the City Council they are asinine as an October fog. In fact, City Attorney Wood, who is somewhat of a mathematician himself, is authority for the statement that "there aren't three lawyers on Court street who can make 'em out"—and not one who can understand them." Laurendel beheld such good authority. The LEDGER will not waste space with these "reports" until they are rendered intelligent to the average layman. This, it is quite certain, will take place when it is discovered to what an alarming extent the new plan will cripple the School Fund of the city. —Editors.]

The Wharfmaster reported net collections for March \$105.17.

The report of the City Treasurer totals as below:

Balance.....\$ 2,066.39

Receipts.....4,364.29

Total.....\$ 6,430.68

Expenditures.....3,446.13

Balance on hand.....\$ 2,984.55

The report of the Claims and Accounts Committee was as follows:

Alms and Almshouse.....\$ 384.93

Internal Improvements.....136.72

Reception.....145.95

Gas and electricity.....457.03

Miscellaneous.....72.70

Total.....\$1,219.33

A bill of \$5 for groceries furnished was allowed to M. C. Hutcheon.

Messrs. Fred Dressel, George Young and Mrs. Emma Limerick of the Sixth Ward presented bills to the amount of \$210 for damages to their property by the overflow of a sewer. The Mayor appointed a special committee, composed of Messrs. Frost, Etzel, Heiser, Newell, Tolle, Parker and City Attorney Wood, to investigate and report at the next meeting of Council.

City Treasurer Fitzgerald presented the following report of delinquent taxes in his possession for the year 1907: On November 1st, 1907, the amount in his hands was \$7,083.74, collected since that time, \$3,948.25; balance on hand, \$3,135.49. The matter was left to the Ways and Means Committee to suggest some means of collecting same.

Mr. Charles White appeared before Council to ask that a fine of \$50 and costs assessed against two colored craps-players be remitted and that he be paid \$25 and the costs. The matter was referred to a committee for advice.

The Internal Improvement Committee reported very little work done

"The best way to get rid of a bad law is to enforce it."—General Grant.

THE LEDGER has no more regard for an unprincipled Republican than it has for any other snake.

It is said that in Germany cigarettes are more profitable to the dealers than cigars. The kind that is used in the United States is more profitable to the dealer in coffins than to any one else.

THE yellow newspapermen—Editors as well as correspondents—have for more than a month waged such a vigorous war against Spain that, even if open hostilities be declared, there will be little left for Uncle Sam's army and navy to do.

THE people of the United States made a great mistake in not choosing one of the Democratic War Editors for President instead of McKinley. The man who knows nothing of the horrors of war is always the greatest fighter—on paper and with his mouth.

ANOTHER cause bell against Spain has been discovered. A Spaniard invented the cigarette and his country should be made to answer for all the discomforts that non-users of the paper swathed, pernicious cigarette have endured from its constantly increasing use.

A NEWS telegram says: "Six hundred Sioux Indians, under the leadership of six fighting braves, have tendered their services and are only too willing to go to war if permitted to fight Spain. Most of these Indians were with Spring Butte at the massacre of General Custer and the Seventh Cavalry."

That sort of talk Sioux exactly.—In fact it's simply Siouxer—and the Siouxer the long roll beats the better.

THE LEDGER is willing to pit the judgment of The Fall Mail Gazette, one of the ablest London newspapers, against that of The Evening Bulletin. The English paper says:

"President McKinley has played a great part; but he will know when the limit has been reached, and if war it is to be he will enter upon it with a quiet dignity contrasting strongly with the exultant, stage-actor effects of the Madrid Opera-house."

THE Free-ilver men in Congress, headed by the Honorable Senator Cockrel of Missouri, may they will never vote for a single dollar's worth of gold bonds to carry on war with Spain. Very well, gentlemen; you can take your place in history alongside the Knights of the Golden Circle. The Government got along moderately well, thank you, in suppressing the Civil War without the aid of these patriotic traitors, and it may get along in dropping the Dons without the help of such castles as the Honorable Senator from the Pike State.

Tooth extracted without pain. Dr. J. W. Carmel, over Harry Taylor's, Phone 60.

A TEST CASE.

Census Act Declared Unconstitutional by a Louisville Judge.

LOUISVILLE, Ky., April 5.—Judge Emma Field, in breaking morning decided that the census act in regard to public schools passed by the legislature is unconstitutional. The decision was rendered in a test case brought by the Louisville school board, which opposed the act as being a criminal indictment of every resident of Louisville. Judge Field held that the present act relates almost entirely to the city of Louisville and the county of Jefferson and excludes certain classes of children in this district that are not excluded in others in the division of the school fund. The case will go to the court of appeals. It is supposed that the heat of the fire caused the stone to crack.

MILLSTONE BURST.
Three Men Injured in the Latons Distillery at Milldale.

MILLDALE, Ky., April 5.—One of the big mills in the Latons distillery burst at noon Monday. The injured are: John Keller, leg broken; badly cut. John Zoller, leg broken; bruised. Ernest Griffin, bruised and cut. A huge millstone broke, and fragments of iron and stone were sent crashing about the three men, who were at work cleaning up the debris of Sunday night's fire, which caused a loss of \$3,000 in the millroom. It is supposed that the heat of the fire caused the stone to crack.

Argument on Prison Bill.
FRANKFORT, Ky., April 5.—The April term of the state fiscal court convened Monday. After inspecting the jury Judge Cantrell heard arguments on the case testing the validity of the Ironston prison commission bill, which requires the approval of the judicial management, placing it in the hands of democrats. Senators Goebel and Taylor, appearing for the Third and Seventh appellate districts will be tested in the courts by State Inspector L. W. of Whitesboro. He is a candidate for the republican nomination for judge to succeed Judge Lewis, and the ferryman takes Whiteley county out of that district before he is kicking. He will file his petition in a few days.

Important Decision.
LEXINGTON, Ky., April 5.—Merriek Lodge of Odd Fellows, seeking to enjoin the collection of state, county and city taxes as levied by the republican case before Circuit Judge Parker, who, Monday, decided that the property is not exempt from taxation, holding that the funds of the Odd Fellows derived from this property is not "wholly" devoted to public charity. The case will be taken to the court of appeals.

No New Cases in Bell County.
MIDDLESBORO, Ky., April 5.—No new cases of smallpox here. The daily inspection by the health officers and inspectors are thorough and it is not thought that any further new discovery will be made. No information can be obtained as to time of revoking the quarantine orders.

Herndon's Assistance.

LOUISVILLE, Ky., April 5.—The plant of the O. K. Store and Range Co., at Brook and A streets, was completely destroyed by fire Monday night, the total loss being about \$50,000. The total insurance on the stock and plant is less than \$30,000.

Lexington's Court House.
LEXINGTON, Ky., April 5.—The contractors for all the work of rebuilding Lexington's burned court house have been let and work will begin in a few days. There was no competition for the work, it not being let to the lowest and best bidder.

Removable Infant.
RICHMOND, Ky., April 5.—A newborn babe was found on a branch near the Richmond gas plant, and marks on the body being about six weeks old. The child was murdered. It was covered with heavy stones. Coroner Brown is investigating.

Peaches Killed.
BARBOURVILLE, Ky., April 5.—Recent frosts have killed the peach crop and greatly damaged the apple crop.

The Pope Has Not Formally Offered to Mediate.
ROME, April 5.—It was stated in Vatican circles Monday that the pope has not yet offered to mediate between Spain and the United States, because he has not been requested to do so by the two governments. It is true, however, that the pope has conveyed to Madrid his ardent wish for the avoidance of a conflict and has asked Spain to make a sacrifice for the sake of warlike measures or decisions.

H. C. Wells and the Louisville Tobacco Warehouse Company have sued the Hartford Fire Insurance Company on a policy for \$2,500 and the Lancashire Insurance Company of Manchester, England, on a \$2,000 policy. The insurance was on tobacco destroyed in a warehouse fire at Carlisle, September 27th, the total loss being about \$35,000.

The pension of William Hissley of Concord has been increased from \$17 to \$24 a month.

If you want a quart of good whisky, go to M. C. Russell & Son and get "Mittoola." The Government guarantee is on every bottle. None better.

Colonel John T. Moran the boss stonemason has generously volunteered to contribute several days work on the foundations of the new Opera house. Now, if every other stonemason would be just as clever the work could be done quick and cheap, and as the house is being built by voluntary contributions all around, it would be a nest thing for the mechanics, and a favor that would be greatly appreciated by the committee, the fire company and citizens.

STARTLING FIGURES.

What New York City Pays Every Year For Pretty Flowers.

In an investigation of the flower markets in New York a writer in The Rural New Yorker gives some startling figures. For flowers alone, New York pays \$12,000,000 each year. The violet leads with \$3,000,000, and the rose comes next with \$2,500,000. The following comparative figures indicate the magnitude of the business:

Value of flowers used in New York \$12,000,000
Total crop of United States (1900) 1,164,409
States (1900) 6,932,325
Total imports of tea (1900) 12,704,449
Value of all lead mined (1900) 1,129,000
Value of all natural gas (1900) 20,000,000
Expenses on all telephone lines (1900) 14,714,754

The money paid for these flowers in one year would pay all the farm mortgages in the following states, all put together: Alabama, Delaware, Georgia, Kentucky and Mississippi!

It would buy the entire farm property in either Oklahoma, Arizona, New Mexico, or the District of Columbia.

It would pay the entire net state debt of Massachusetts.

The money spent for roses and violets alone would pay for all the cement mined in this country during 1895.

It is also stated on good authority that in New York state, there is more money invested in growing chrysanthemums than in growing peaches!

There is more Catarrh in this section of the country than in all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from two drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for anyone who can cure, send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O.

Sold by druggists, 75 cents.

The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy cures better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people and is the best.
